

Mockup:

This mockup is the home page. Here the user will be greeted with this page once they are logged in to the system. Their widgets will appear on the front screen and they can see all their information in one place. There will be quick navigation to separate pages through either pressing on the tabs or pressing on a widget. Widgets can be rearranged, added or deleted. This page will also have the company name, logo and relevant information for the user like the current location that data is being displayed for.

Balsamiq Wireframe:

Persona:

This persona represents Daniel who is a police officer. He is devoted to his role in helping his local community and ensuring Birmingham is a safer place for residents. This means that our application should be of use to him and his unit to patrol in areas where there have been reports or issues that the police can solve.

Daniel Roberts

Age: 39

Laptop: MacBook Pro

Work: Police Officer

Location: Billesley

Goals and motivations

Daniel is a successful police officer who has served his community for the past 4 years. He hopes to work his way up the ranks in the police station and ensure people feel safe in his community.

Lifestyle,

Enjoys going to the gym, playing cricket, spending time with family, hiking.

Nature of work

Currently a police officer for Billesley Police. Working both day and night shifts when he can and loves working with his team of officers to maintain the safety of the area.

Experience and training

- Most amount of catching anti-social behaviour in the area out of any police officer.
- Bravery Award

Environment

Prefers to spend time at home with family to help them feel safe. Always worries about his family when he is not around at home.

IT skill level

Decent IT level, can use basic applications such as Word, PowerPoint, Excel etc. Can use police systems quite well and a fast learner. Has an iPhone and MacBook so understands how to access websites.

Attitude towards technology

Great – it's easy to use and saves me time

I like it but it often falls short

I don't like it but I have to use it

IT equipment

MacBook, iPhone, Samsung TV, family iPad

How will this person use the web site?

Daniel believes that the police stations themselves as well as himself can benefit from the site by tactically placing officers in different areas to prevent crime or anti-social behaviour before they occur. This can lead to better strategies to preventing crime and target areas where there are more reports.

Key tasks

- Provide feedback on our website to see if patrols are better carried out using our website
- What impact it has done for the team
- Whether the application useful for his family while he is away.
